OBJECTIVE

Seeking a dynamic role to apply education, skills, and experience, contributing meaningfully to an organization. Aim for mutual growth through collaboration with future advancement opportunities.

EXPERIENCE

Nov 2022 to present

Role : **Backend Java API Developer**
Org. : Tata Consultancy Services
Client : Ministry of External Affairs, Govt. of India
Project : Passport Seva
Tools : Java, Spring Boot, Git, Postman, PuTTY
SQL, VirtualBox, Eclipse, STS (Spring tool Suits)
Tasks : I design and implement scalable, secure APIs, collaborating with cross-functional teams to ensure seamless integration. Thorough testing and optimization for performance and scalability are my priorities. I integrate third-party APIs, emphasizing comprehensive documentation and best practices. Committed to staying current with industry trends, I contribute innovative solutions for continuous improvement in Java API development.

Mar 2021 to Oct 2022

Role : **Backend Java API Developer**
Org. : HCL Technologies Limited
Client : Boeing
Project : Boeing ServiceHub & Kitting
Tools : Java, ATG Framework, Jira, Bitbucket,
Git, Postman, SQL Developer, VirtualBox, Eclipse
Stint : Developed backend APIs to enhance system functionality; and conducted thorough testing in both local and staging environments to ensure seamless production deployment.
