To secure a mid level position as Test Engineer where my skills of testing software on various levels will help the organization grow.

## EDUCATION

### BACHELOR OF ENGINEERING

Tamilnadu college of Engineering , Coimbatore  
Anna university.

2015-2019

#### Major

Electronic and communication engineering

## EXPERIENCE

### MANUAL TESTER

#### Telepixels Solutions Private Limited

2019-2021

Chennai

As a test engineer in the service-provider team at Telepixels, you would be involved in various projects related to VoIP deployments and core telecom projects.

**Project: VoIP Deployment Testing for a Retailer**

#### Objective:

This project aims to ensure the successful deployment of VoIP services for a retailer, including VoIP termination and calling card service. The project aims to validate the functionality, reliability, and performance of the VoIP system to provide a seamless calling experience for the retailer's customers.

#### Responsibilities:

- Understanding the retailer's VoIP deployment requires collaboration with the development and project management teams.
- Execute test cases to verify the functionality and performance of the VoIP system.
- Conduct tests to ensure proper call routing, accurate billing, and adherence to service-level agreements (SLAs).
